PROFESSIONAL SUMMARY

Full Stack Web Developer and Software Engineer student specializing in Next.js, NestJS, React.js, WordPress, HTML, CSS, and JavaScript with proven experience in Freelancing by building responsive and scalable websites. Strong understanding of web optimization, backend integration, version control using Git and GitHub. Focused on building scalable, reliable systems and efficient APIs.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL, HTML5, CSS3

Backend: NestJS, Firebase, Flask, RESTful APIs

Frontend: React.js, Next.js, Bootstrap, Tailwind CSS

Database: MySQL, PostgreSQL, MongoDB, Supabase

Tools & Technologies: Docker, Git, GitHub, CI/CD

PROFESSIONAL EXPERIENCE

WordPress Developer | Freelance - Self Remote

May 2025 - Present

Lahore, Pakistan

- Developed and maintained a responsive courier tracking website using WordPress, Elementor, HTML, CSS, and PHP, supporting 1000+ daily active users for shipment tracking
- Conducted cross-browser and device testing (Chrome, Firefox, Edge, and Mobile Phones) achieving 100% consistent UI/UX performance across platforms
- Resolved web issues and implemented features updates to uphold high performance and usability standards, leveraging APIs and backend integration.

PROJECTS

CyberSecure - Security Consultancy Platform | [GitHub](#) | [Website](#)

Dec 2025 - Mar 2026

Next.js, NestJS, PostgreSQL

Web platform that allows users to consult with cybersecurity experts and reduce their business related online threats by 90%.

- Developed a security consulting platform with 9+ responsive pages for service management, user authentication, and content publishing.
- Implemented modular backend to handle the 10,000+ daily active users by using NestJS and TypeScript for authentication, and content management.

VisionHome AI - Intelligent Room Designer | [GitHub](#) | [Website](#)

Sep 2025 - Mar 2026

Python, Flask, Next.js, Hugging Face

AI platform that takes room Image and generates required room design by taking command in NLP.

- Integrated a Next.js frontend, enabling real-time "Before/After" comparisons that enhanced image processing and achieved a 90+ Lighthouse performance score.
- Developed a lightweight Flask backend for model handling, significantly enhancing response times for real-time user interactions.
- Optimized model fine-tuning with Low-Rank Adaptability, achieving a 60% reduction in VRAM requirements and facilitating high-quality image generation on consumer-grade hardware.

CERTIFICATIONS & ACHIEVEMENTS

- Introduction to Frontend Development** - Meta (June 2025) | Credential ID: AOGF6DDCQBA5
- Web Development** - SoloLearn (July 2025) | Credential ID: CC-SQJ2DCOX
- SQL Intermediate** - SoloLearn (May 2025) | Credential ID: CC-NQAROFR7

EDUCATION

BS in Software Engineering

Superior University, Lahore | CGPA: 3.24/4.00

Current Semester: 7th

Related Coursework: Programming Fundamentals, Object-Oriented Programming(OOP), Data Structures and Algorithms, Web Engineering, Database Management System, Mobile Application Development.
